

Maintenance-Free Pallet Jack Power System

Reliable. Durable. Built for Productivity.

This maintenance-free, on-board power system is engineered for pallet jacks and walkie-riders. With a compact design, easy installation, and rugged construction, it delivers consistent performance in warehouses, distribution centers, and retail operations. Whether you're replacing aging batteries or upgrading equipment, this system provides dependable power to keep your operation moving.

Applications

-  Pallet jacks and walkie-riders
-  Distribution centers and warehouses
-  Retail backrooms and logistics hubs

Key Benefits

- **Maintenance-Free** – No watering required, reducing downtime and service costs
- **Easy Installation** – Compact, modular design for quick replacement or upgrade
- **Reliable Power** – Consistent runtime to support extended shifts
- **Sustainable** – Long service life reduces waste and replacement frequency

Specifications

Pallet Power System Line							
Type	Voltage	KWH	Length	Width	Height	Weight	Connector
Standard Unit	24	3.4	25.5	7.63	26.44	360	SB175 Red
Extension Kit	24	3.4	26.5	8.63	26.44	360	SB175 Red

Replacement Batteries
